Projects Detail:

1. Multilingual Library Management System

To automate all the libraries of "University of the Punjab". This Software is based on the following modules.

- Union Catalog
- ACQUISITION
- Cataloguing/Authority Control
- MEMBERSHIP
- Circulation
- Stock Taking
- Outreach/ Administrative Services
- Simple search
- Binary Search
- On-line Public Access Cataloged
- MARC 21
- Administrative Reports

It handles all issues of library management like library members record, Book Check In, Book Check Out and Cataloging.

My Role:

Design of Data Base in SQL Server2000
Desktop Application in VB.Net
Reports using Crystal Report

2. Govt. Schools Monitoring System

To automate the monitoring system of government schools of district Sheikhpura and Kasur. Thus its extension covering the whole Province of Punjab. This system being used by District Education Department to monitor the monthly information of Government Schools. The basic purpose is to record data related to monitoring and then generating reports for planning and decision-making. The extension to this system will be a geographical representation of data that will give information according to the specified location. System has Both Desktop and Web Client connected to centralized database.

My Role:

Design of Data Base in SQL Server2000
 Construct WEBSERVICE in ASP.NET
 Connect Desktop System with Data Base through WEBSERVICE
 Informative Reports using Seagate Crystal Report

Tools:

Asp.Net, VB.NET, SQL Server2000, Seagate Crystal Report

3. Accounts Management System

The system consists of Chart of Account (Upto 5 Level), Default Chart of Account Mapping, Notes of Account, Project Based, Fiscal Year (Opening/Closing), Template Vouchers, Voucher Posting (JV/CPV/CRV/BPV/BRV), Advance Search, Currency Management and different type of informative reports.

Tools:

VB.NET, SQL Server2005, Seagate Crystal Report

4. Stock & Inventory control system

This software handles sales, purchase, Inventory processes and as well as maintains accounts details.

Tools:

VB.NET, SQL Server2000, Seagate Crystal Report
