

Few Herbal Preparations for Local Applications

Products of ORIC

Athlete's Foot

This is fantastic antiseptic and antifungal to treat irritating problems as athlete foot. This disease is caused by the fungus that loves dark, moist areas of the skin between the toes of the foot. Repeat daily the massage of a few drops into the affected areas between the toes, then weakly after that

Travel Sickness

Massage with a few drops onto tummy and temple, and apply a little under the nose to inhale prior to Journey. It leaves no demand to take the travel sickness pills which cause drowsiness

After Shave Lotion

Burning sensation after shave caused by flaking off dead cells by razor from the skin and exposing extra sensitive skin can be relieved by patting a few drops on the surface of the face

Stress Relaxant

It can relieve from some of the most common symptoms of stress both physical and emotional, the stiffness of the joints, aching and pains of different muscle parts of the body due to vigorous exercise can be recovered by massaging a few drops into the affected parts whereas the symptoms of emotional stress like anxiety and nervous tension can be normalized by rubbing a small amount into the back of the neck, base of the skull and shoulders

Insect Repellant

This is one of the most versatile insect repellents of all the biting insects of different types can be warded off and the room can be sterilized by evaporating a small amount in a vaporizer at night

Minor Insect Bite or sting

Rub a few drops into the affected areas of the body until the pain or itching stops.

Mosquito Repellant

Dab a few drops on areas of body likely to be exposed and bitten
